MINIMIZING MAINTENANCE WITH FORBO MATTING PRODUCTS

Walk off mats are the most efficient way of stopping dirt at the door and keeping building maintenance to a minimum. They are also effective internally, in high traffic areas and severe wipe-off regions.

Some applications for our product lines would be: freight elevators, factory entrances, industrial and commercial entrances.

When planning a mat program, high traffic areas should be pinpointed and the strategic placement of mats are essential.

The function of our program is to effectively "Stop, Catch, Trap, Hold and Hide" soil and moisture all year round!

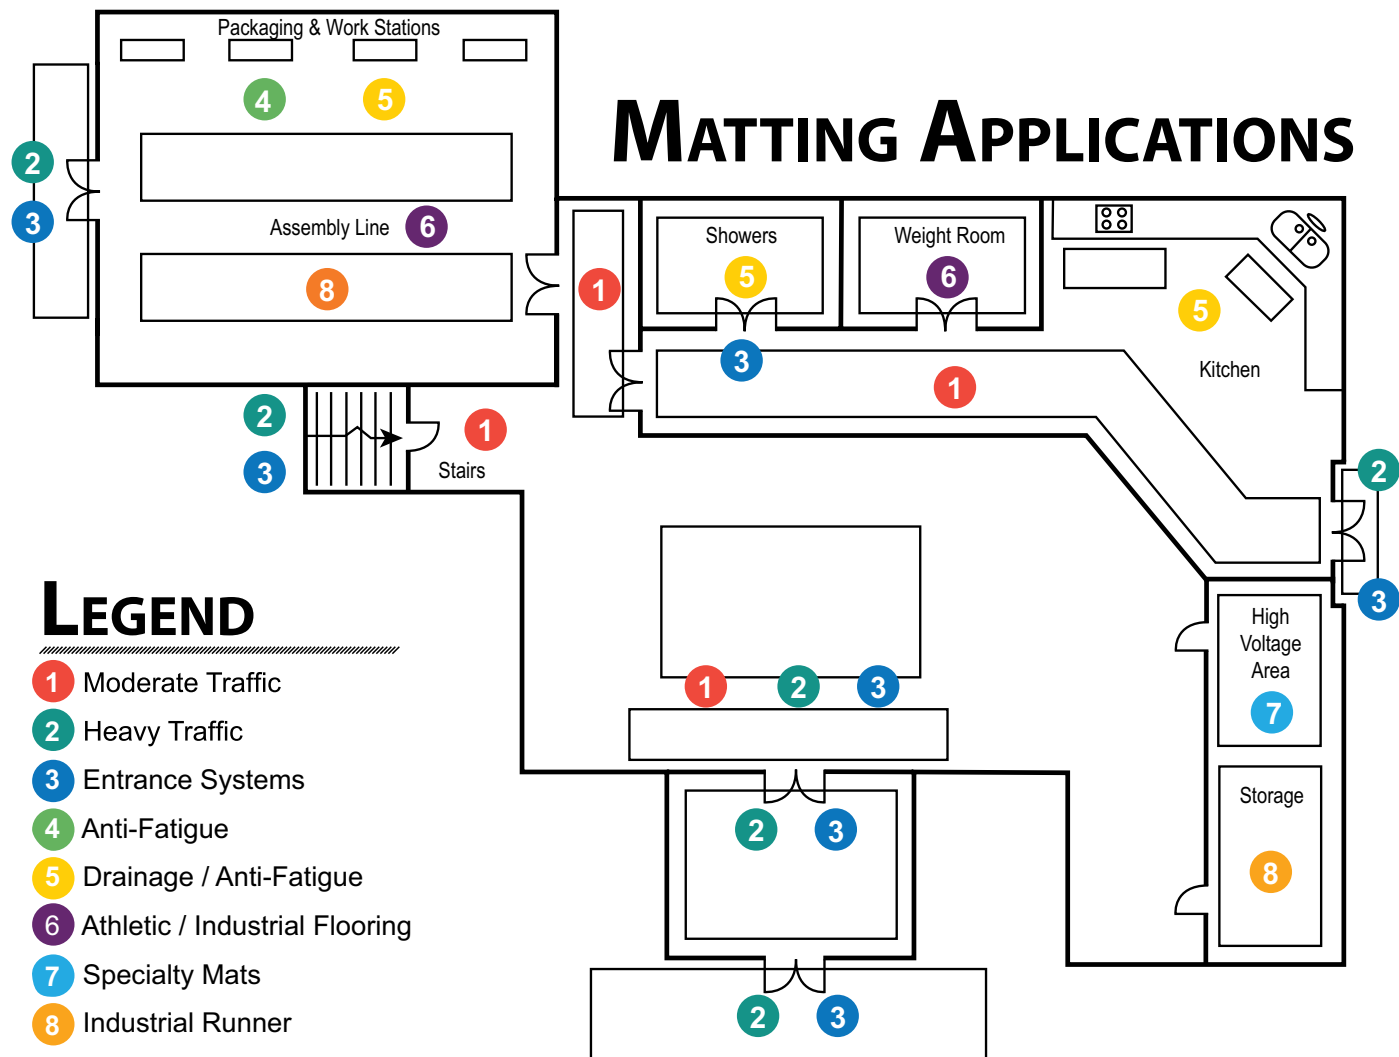

50% of dirt and moisture is collected on the first 10 feet of a mat... STOP your problems at the door with Forbo's Specialty Matting Solutions.

Anti-Fatigue matting has been proven to increase productivity levels and safety within the workplace. Our anti-fatigue matting line also comes in grease proof rubber; the perfect

application for restaurants and bars. Additional applications for anti-fatigue and anti-slip matting are: grocery stores, cashiers, machine-operators and industrial work stations.

Safety is the key to success in any operation. Create a safe work environment with Forbo's Specialized Matting.

*** Forbo's Entrance Matting brochure is also available. For more information please call 1-800-268-8108.**

PLEASE NOTE: This catalogue is to be used for reference purposes ONLY. Colour swatches may vary slightly from actual sample due to photography lighting and production dye-lots. Therefore, please only place an order after seeing an actual sample to obtain a more accurate confirmation of your colour choice. Note that Nominal sizes are quoted in this catalogue. Please also allow for approximately 4 weeks on all Special Order items.

Forbo Flooring Systems is the global market leader in linoleum floor coverings, owning a market share of over 60%. In addition to linoleum-based products, Forbo develops, manufactures and markets a rich diversity of high quality vinyl floor coverings and offers a full range of professional service products. All Forbo products combine high levels of functionality and durability. Forbo Flooring Systems is committed to environmentally responsible production and to far-reaching customer service.

Soft Spun

Applications

Recommended for use in commercial applications in areas such as workstations, cashiers, assembly lines and tellers. For use in dry to moist work environments.

Features and Benefits

- Ergonomically designed to reduce strain and to provide relief from aching feet and legs
- For light to moderate applications, Soft Spun is the most economical choice to improve employee comfort and increase productivity
- Choose from rolls or standard sized mats to suit your needs
- Provides workers with a comfortable surface to stand on for extended periods of time
- Provides protection from damp and cold floors
- Various textured surface options increase slip resistance
- 3/8" thick, closed cell PVC foam

Special Order: Supreme Soft Spun

5/8" thick in black pebble and various sizes

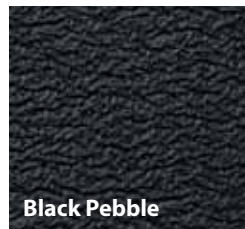

Available Sizes

Mat Size 3/8" (in)	Weight (lbs)	Rolls (ft)	Weight (lbs)

36 x 60	10	6 x 60	234

Custom cuts are also available

Black Ribbed

Black Pebble

Also available in Grey

Bubble Mat

Applications

Recommended for industrial applications such as machine shops and shipping/packaging stations.

Features and Benefits

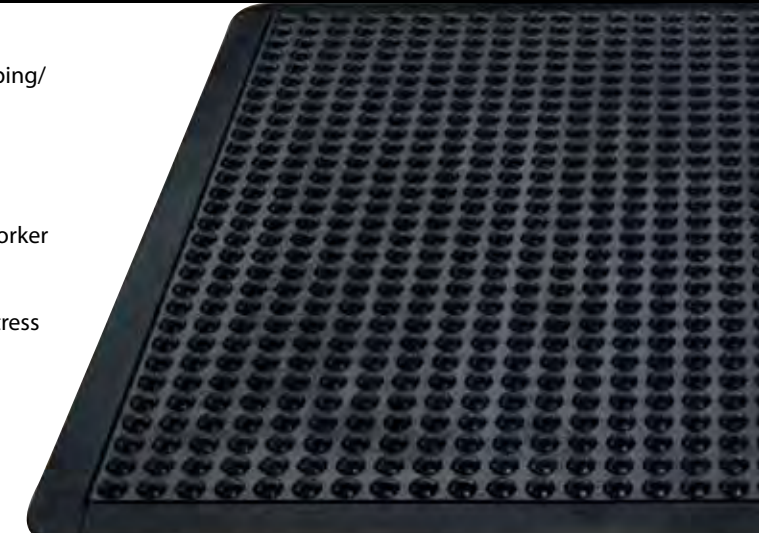

- High quality 100% solid rubber, will not compress over time
- Air pockets are designed to encourage changes in position improving worker circulation for day long comfort
- Domed surface provides sure footing as liquids settle between domes
- Significantly improves worker comfort by reducing lower back and leg stress
- 5/8" overall thickness, beveled edges for safety
- Designed specifically for anti-fatigue applications
- Has excellent shock absorbing properties

Available Sizes

Mat Size (ft)	Weight (lbs)	Mat Size (ft)	Weight (lbs)
2 x 3	10	3 x 4	19

Colours Available

- Black

Marble Spun

Applications

Recommended for industrial applications such as machine shops and shipping/packaging stations.

Features and Benefits

- Ergonomically designed mats with a marbleized finish offer a less industrial look, making it ideal for use in offices or retail environments
- Tough PVC top stands up to the wear and tear of daily use
- Ease lower back and leg stress associated with long periods of standing
- Heavy vinyl backing
- Bevelled edges for safety
- 1/2" overall thickness

Pro-Sport Residential

Applications

Recommended for use in residential & light commercial gyms and fitness rooms, pet facilities, retail settings, workshops, garages, entranceways, mud rooms, patios, trunk grip mat. Wherever a residential and light commercial floor application requires slip resistance, impact and sound absorption.

Features and Benefits

- 5 mm - Single layer for low traffic areas
- Engineered for maximum durability and easy clean-up
- Slip resistant dry or wet
- Absorbs impacts and reduces sound
- Premium two color fleck dispersion creates the look of a professional gym
- Custom fit any area
- Pro-Sport rolled flooring creates a nearly seamless look once installed
- Full spread glue down installation is recommended
- Made in Canada using a vulcanized recycled rubber process

Available Sizes

Thickness	Roll Size (ft)	Weight (lbs)
5 mm	4 x 220	1.10 lbs/sq.ft

Pro-Sport Commercial

Applications

Recommended for commercial & residential gym and fitness rooms, golf & country clubs, ski resorts, sport centres, locker rooms, walkways, pet facilities, retail settings, walkways, workshops, garages, entranceways, patios. Wherever a floor requires slip resistance, shock and sound absorption.

Features and Benefits

- 7 mm - Tri-layer commercial grade sport flooring for high traffic areas
- Engineered for maximum durability and easy clean up
- Will outlast conventional granulate flooring
- Three layer process provides unique impact absorption, cushioning and spring effect
- Upper layer resists cuts and abrasion
- Middle layer is fibre reinforced for resilience, durability, excellent tear and tensile strength
- Pro-Sport rolled flooring creates a near seamless look once installed
- Full spread glue down installation required
- Slip resistant dry or wet
- Absorbs impacts and reduces sound
- Made in North America using a vulcanized recycled rubber process

Available By Special Order

9.5mm Pro-Sport Dual Layer Rubber Floor

Recommended for heavier duty usage (hockey rinks, weight rooms, etc.) (Extra matting recommended for traffic areas in constant contact with skates, e.g., penalty boxes, ice rink entrances)

Available Sizes

Thickness	Roll Size (ft)	Weight (lbs)
7 mm	4 x 50	1.55 lbs/sq.ft.
9.5 mm	4 x 50	2.10 lbs/sq.ft.

Corrugated Switchboard

Applications

Recommended for use around high voltage applications, such as electrical panels, circuit breakers, etc.

Features and Benefits

- Non-conductive 1/4" Nitrile rubber/PVC matting engineered to protect workers against electrical shock when working around high voltage apparatus within product specifications
- Meets the requirements of ASTM-D 178-01, standard specification for rubber, insulating matting
- Meets optimal ASTM requirements of Ozone, Flame, and Oil resistance
- Recommended for maximum voltage use of 17,000 volts AC
- Type II Class 2

Colours Available

- Black

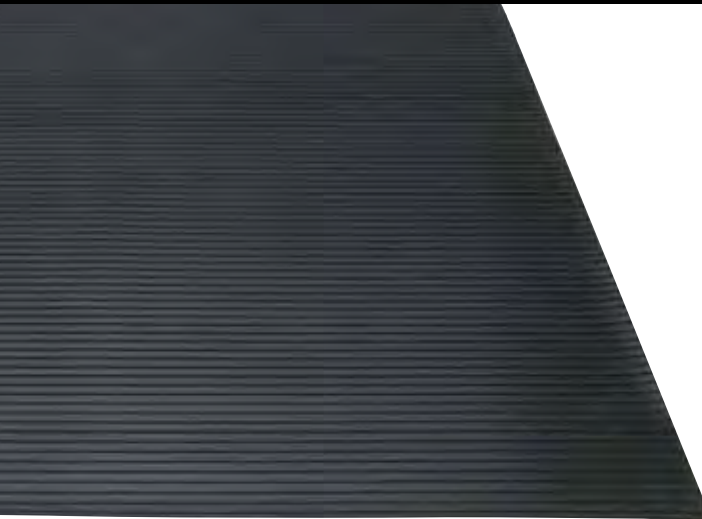

Available Sizes

Roll Size (ft)	Weight (lbs)	Roll Size (ft)	Weight (lbs)
2 x 75	3.0 lbs/lin.ft.	4 x 75	7.0 lbs/lin.ft.
3 x 75	5.0 lbs/lin.ft.		

Custom cuts are also available

INDUSTRIAL RUNNER

Ribbed Runner

Applications

Recommended for ramps, industrial walkways and outside entrances.

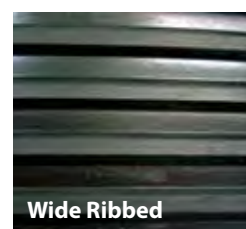

Features and Benefits

- Choose between wide and fine corrugated designs
- Durable 1/8" natural rubber improves slip resistance, and stands up longer to wear
- Maintains its flexibility in cold environments
- Helps to absorb noise from hard floors

Available Sizes

Roll Size (ft)	Weight (lbs)	Roll Size (ft)	Weight (lbs)
	Wide Ribbed		Fine Ribbed
2 x 75	1.25 lbs/lin.ft.	3 x 75	1.80 lbs/lin.ft.
3 x 75	1.80 lbs/lin.ft.		
4 x 75	2.50 lbs/lin.ft.		

Custom cuts are also available

FLOORING SYSTEMS

Reasons Why You Need Forbo Matting

- 1. Improve Floor Safety** - Whether in production areas or the front entranceway, matting reduces the likelihood of slips and falls on your property or place of work.
- 2. Increase Productivity By Providing Comfort** - Anti-fatigue mats decrease the stress on the feet and legs by providing a cushioning surface for people to stand on over prolonged periods of time, resulting in greater comfort and increased productivity.
- 3. Reduce Injuries** - Employees whose job requires them to stand to perform their tasks will suffer from lower back strain and leg fatigue. This leads to absenteeism or potential Workers Compensation claims. Install the right matting and reduce claims.
- 4. Direct Traffic** - Matting products are an ideal way to control pedestrian traffic for safety reasons or to help direct people to where they need to go.
- 5. Protect Your Flooring** - From polished granite to imported tile, ice-melters and sand will ruin the finish. From untreated concrete to painted floors, oils and chemicals can destroy any type of flooring. Forbo has the right mat to provide the protection you need; saving you the expense of floor repair.
- 6. Sustain Cleanliness** - Mats are designed to remove dirt from footwear and contain it before it is tracked into your workplace.
- 7. Reduce Liability** - Public buildings, commercial malls, office towers, and workplaces must ensure that all possible measures are in-place to prevent someone from slipping on wet flooring. Matting helps to remove snow and absorb water, helping to keep floors safe to walk on.
- 8. Lower Cleaning Costs** - By trapping the salt, sand, water and dirt at the entranceway, your cleaning costs will be significantly reduced. Floor finishes will last longer and carpets will require less professional cleaning.
- 9. Promote a Healthy Workplace** - Point out the new mats in your office to your staff and explain some of the key benefits of matting. Your employees will take greater pride in their work environment and in maintaining the cleanliness and safety of their workplace.
