Coral Grid

Applications
Offers a contemporary and cost effective option for recessed entrance grills, both for new applications and for replacement of your existing grill system.

- Features and Benefits**
- Every Grid mat features 100% recycled, extruded aluminium interlocking carrier sections for durability, with infill strips joined together by rubber double connecting strips.
 - Grid is constructed to spread heavy loads and to offer long lasting effective performance in demanding locations.
 - Grid is available in 12mm and can be used in the majority of matwells. The unique aluminium dovetail construction also allows for easy shaping on site.

LOGO MATS

Show off your company logo, product or image with custom designed logo matting Forbo Flooring Systems is an industry leader when it comes to custom matting projects. We can take the most intricate designs and customize it to your specifications.

Nylon 6.6 Matting

Your logo, image or artwork is reproduced onto Nylon 6.6 entrance matting as the "painter's canvas". The colour capabilities are limitless. A state-of-the-art, colour injection dyeing process ensures colour and placement accuracy for your matting project. The dyeing process used is environmentally friendly - the dyes are not harmful to the environment. This technology is capable of changing patterns within fractions of a second to eliminate ink waste and waste between orders on the production line.
